

# BOND

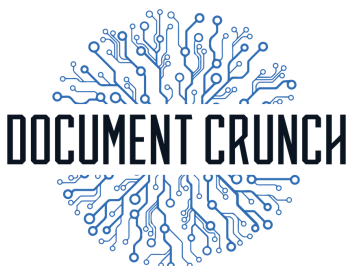

## Case Study

### OVERVIEW

The BOND Brothers team constantly have a lot on their plates, having to ensure that all risk is being effectively managed throughout the organization. Recently, they have further enhanced their delivery by using Document Crunch as a means to accelerate the ability to deliver effective contract review and management to project teams.

“*Document Crunch has definitely boosted & accelerated our ability to get through all of our contracts. This is a 50% time savings for me*”

- Paul James,  
Sr. VP, Risk Mgmt & General Counsel

### CHALLENGE

Over the last few years, the BOND team has had to deal with an increase in complexity to the contract terms and conditions surrounding their projects. This challenged their legal/contract team to manage the volume of contract reviews required.

### SOLUTION

The BOND team decided to implement Document Crunch to bolster the contract review process. Document Crunch was able to take their contract review checklist and architect an automated process where the user can now be pointed directly to the relevant contract provision(s) that deal with the issue presented in their checklist.

**Save time and  
lower costs**

**Enhance  
Collaboration**

**Reduce  
contract risk**

### BENEFITS

1

#### Increases efficiency

"Document Crunch helps any risk management/legal team better support their business from a contract review process standpoint."

2

#### Saves time

"It gives me a leg up on the review process. This has enhanced a more focused and thorough initial work product for me to review."

3

#### Streamlines review process

"What Document Crunch has done is bring consistency to the checklist submitted to project teams versus variable reviews coming from different individuals."
